will find the bill you wanted, having received it from your office, some of them being South Carolina. (Why he says they are not, I don't know.)

From the character of the above, which is a sample of the correspondence that has been kept up from Fort to the shore since Major Anderson retired from Moultrie to the only four acres of territory that is now in the possession of the State of South Carolina, it is evident that the people of South Carolina are not in the least in a hurry to communicate with their friends on shore.

It is a question now arising of nearly equal importance to the first, namely—Can the Confederate States govern themselves? And in no place can a better relation to the question be had than at a point where a Convention of the representatives of the people of South Carolina is now assembled.

On the second, notwithstanding a lively debate, a decision was reached in favor of adopting the new constitution, without doing so or crossing it, and to that conclusion have the most influential members of the Convention arrived to night. It appears, however, that South Carolina is content to surrender to the new government, and to moderate her views, to govern her people temperately, and with the aid of the "Unionist" State, to successfully govern themselves.

Mr. Pickens has been all day engaged in preparing a message, which is to be presented to the Convention to-day. It will contain all the information necessary to be transmitted to the body in his capacity as Governor of the State, and include the reports of the different departments, State War, Treasury, and so on.

much lower price than they could buy at the North, with the duties added.

I send the following extract from the Charleston States of March 28—

DEAR FRANK—The effect of the tariff of the Confederate States, operating as it does on importations from the North, will be to make the South a free market for the goods of the North, and to make the North a free market for the goods of the South.
